23. Other reserves (continued)

Certain Group companies are obliged according to the applicable commercial law to retain a percentage of their annual net profits as legal reserve. This reserve cannot be distributed during the operational life of the company.

The Contingency Reserves include, among others, reserves formed by the Company and certain Group subsidiaries by applying developmental laws. These reserves have exhausted their tax liability or have been permanently exempted from taxation so there is no additional tax charge for the Group and the Company from their distribution. Based on the decision of the General Meeting of June 19, 2015 the "special & contingency reserves" have increased by €33.7 mil. due to the transfer of the amount from "retained earnings".

The Tax Exempt Reserves under Special Laws, according to the Greek tax legislation, are exempt from income tax, provided that they are not distributed to the shareholders.

The distribution of the remaining aforementioned reserves can be carried out after the approval of the shareholders at the Annual General Meeting and the payment of the applicable tax. The Group has no intention to distribute the remaining amount of these reserves and consequently, has not calculated the income tax that would arise from such distribution.

In 2014, certain subsidiaries of the Group created a special reserve from prior years' retained earnings, which amounted to €600 million, in line with the relevant BoD resolutions. On 19 June 2015, the Annual General Meeting of Shareholders approved the distribution of €12,694,687 from the Special reserves (note 10).

The Revaluation Reserve includes: a) €48.2 mil. (2014: €33.8 mil.) as the fair value of tangible and intangible assets that the Group had in Egypt through its participation in the joint venture Lafarge-Titan Egyptian Investments Ltd, until it fully acquired the joint venture and b) the €1.4 mil. (2014: €8.3 mil.) debit difference between the fair value and the book value arising from the recognition of the put option of the non-controlling interests for the sale of ANTEA Cement SHA's shares.

The Actuarial Differences Reserve records the re-measurement gains and losses (actuarial gains and losses) arising from the actuarial studies performed by the Group's subsidiaries for various benefit, pension or other retirement schemes (note 25).

The Foreign Currency Translation Reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries.

The Currency Translation Differences on Derivative Hedging Position Reserve illustrates the exchange differences arising from the translation into euro of loans in foreign currency, which have been designated as net investment hedges for certain Group subsidiaries abroad. It also illustrates the exchange differences arising from the valuation of financial instruments used as cash flow hedges for transactions in foreign currencies.
